

Vanuatu 2030 | The People's Plan

National Sustainable Development Plan

2016 – 2030

Monitoring and Evaluation Framework

July 2017

Department of Strategic Policy, Planning and Aid Coordination

ACKNOWLEDGEMENTS

The Government of the Republic of Vanuatu extends its deepest appreciation to the many individuals, community leaders, organisations and institutions who provided valuable perspectives, ideas and support throughout the NSDP process that has led to the design of the NSDP Monitoring and Evaluation Framework. Specifically the input provided by the VNSO has been extremely valuable. The Government further extends its gratitude to both the ADB and the UNDP for continued support in the development of this framework.

This framework has been developed as a complement to the *Final Technical Report on the National Sustainable Development Plan 2016 to 2030* and serves as the guide for implementing, monitoring and reporting on this plan.

The drafting of this plan and the supporting background context reports was undertaken by multiple authors, and was coordinated by the Department of Strategic Policy, Planning and Aid Coordination.

All contributions and support received are gratefully acknowledged and warmly appreciated.

Produced by the Department of Strategic Policy, Planning and Aid Coordination

1. VANUATU 2030 THE PEOPLES PLAN

Vanuatu 2030 The Peoples Plan is the National Sustainable Development Plan (NSDP) for the period 2016 to 2030, and serves as the country's highest level policy framework. It is founded on culture, traditional knowledge and Christian principles, and builds on Vanuatu's development journey since independence.

Vanuatu's most recent national plan, the *Priorities and Action Agenda 2006-2015* (PAA) sought to deliver a just, educated, healthy and wealthy Vanuatu. It was the first concerted attempt to link policy and planning to the limited resources of government. Looking ahead to the next 15 years, it is the goal to further extend the linkages between resources, policy and planning to the people and place they exist to serve. *Vanuatu 2030: The People's Plan* outlines the national sustainable development goals and policy objectives in order to translate the 2030 national vision of a stable, sustainable and prosperous Vanuatu into specific priorities to be actioned and providing a sound framework to track and report on progress.

The *Final Technical Report on the National Sustainable Development Plan 2016 to 2030* details the important strategic context behind the goals and policy objectives. It also provides the detailed background to the consultative process that led to the final document, and explains the key issues under each goal. This is complemented by this document, the *Monitoring and Evaluation Framework for the NSDP*. This framework details the processes necessary to ensure the goals and policy objectives are embedded across every part of government and its partnerships with civil society, the private sector and development agencies. It also outlines the process to ensure that there will be regular tracking and reporting on progress towards achieving the national vision through the implementation of plans throughout Vanuatu.

2. OVERVIEW OF THE NSDP MONITORING AND EVALUATION FRAMEWORK

The Department of Strategic Policy, Planning and Aid Coordination (DSPPAC) in coordination with the Vanuatu National Statistics Office (VNSO) and other key government agencies are responsible for monitoring and evaluation of *Vanuatu 2030* the National Sustainable Development Plan (NSDP) for 2016 – 2030. The necessary information for conducting NSDP Monitoring and Evaluation (M&E) and completing the Annual Development Report (ADR), including alignment with the *Sustainable Development Goals (SDGs)*, is located in the M&E tables forming the backbone for this framework and which can be found in Annex 2. Additional information regarding SDG alignment with the NSDP M&E Framework is found **Section 4.1.1**. The information included in the tables is illustrated in **Figure 1**

The NSDP M&E Framework is designed to complement *Vanuatu 2030: The People's Plan* as well as the *Final Technical Report on the National Sustainable Development Plan 2016 to 2030*. The framework is results based, and is intended to serve as a guide for implementing, monitoring and reporting on the NSDP. A more detailed explanation of the critical elements of the NSDP M&E Framework are located in **Section 3.1** of this document.

Figure 1: NSDP Indicators and Targets Tables

SOCIETY 1: A Nation based on traditional governance and Christian principles, which underpin our culture and continue to bestow life skills and knowledge to future generations				
Policy Objective	Indicators	Targets 2030	Baseline*	SDGs
Policy Objective for each Goal	Indicator(s) to be used for M&E	Target(s) for 2030	Baseline status of the indicator(s)	Alignment with SDG Targets and Indicators

**Baseline includes Baseline information, Source of information and additional notes*

The M&E for the NSDP:

- Focuses on indicators and targets
- Uses targets to determine progress with regard to policy objectives
- Focuses the level of evaluation on the Goals and Policy Objectives

Figure 2: Structure of the NSDP

As illustrated in **Figure 2** above, the NSDP is expressed through three pillars. Society, Environment and the Economy. Each pillar is divided into Goals.

Each goal is made up of a series of policy objectives. The three NSDP pillars are comprised of a total of 98 policy objectives spread over 15 goals. There is a maximum of three indicators and targets for each of the 98 policy objectives. In actuality there is a total of 77 indicators and 83 targets in the Social Pillar, 62 indicators and 64 targets in the Environment Pillar and 57 indicators and 58 targets in the Economy

Pillar. The number of targets is slightly higher than the number of indicators. This is due to some indicators having more than one applicable target.

The NSDP contains a total of 196 indicators and 205 targets across the 98 Policy Objectives. The first level of analysis of the NSDP M&E framework focuses on the Policy Objectives through evaluation of the status of each of the targets. Progress is measured towards the target, while the baseline serves as a reference point for the status of each indicator at the start of the plan.

The second level of analysis of the NSDP M&E framework focuses on the Goals and the progress to meeting each Goal as evaluated by progress for the related policy objectives. Reporting provides information for both levels of analysis. NSDP reporting is designed to provide a report that can give a brief overview of the status of each of the 15 Goals through an evaluation of the status of the related policy objectives.

Unlike the previous national development strategy, the *Priorities and Action Agenda (PAA)*, monitoring of the NSDP does not focus on evaluating policy content or policy implementation. Instead the monitoring focus is on targets, and reaching targets for the Policy Objectives and how this impacts progress towards the Goals.

If targets are not being reached then the M&E evaluation component identifies why this has happened. If targets are being met then the evaluation component provides the justification as to how and why the targets are being successfully reached. Even with the evaluation component included, the primary focus of NSDP M&E framework is the targets and indicators data contained within the NSDP tables. The evaluation component is used to clarify the results and status of the targets and indicators through the information collected annually using the M&E matrixes, an example of which can be found in Annex 1.

3. DEFINING MONITORING AND EVALUATION

Monitoring: Monitoring is the systematic analysis made over a given period of time to identify changes.

Evaluation: Evaluation is the analysis of the effectiveness of activities that would allow for a judgment regarding the progress made in relation to the stated goals. The NSDP Annual Development Report incorporates both components as described in **Figure 3**.

Figure 3: Complementary Roles of Results-Based Monitoring and Evaluation*

Monitoring	Evaluation
<ul style="list-style-type: none"> Clarifies objectives 	<ul style="list-style-type: none"> Analyses why intended results were or were not achieved
<ul style="list-style-type: none"> Links activities and resources to objectives 	<ul style="list-style-type: none"> Assesses specific contributions of activities to results
<ul style="list-style-type: none"> Translates objectives into performance indicators and targets 	<ul style="list-style-type: none"> Examines implementation process
<ul style="list-style-type: none"> Collects data on these indicators, compares actual results with targets 	<ul style="list-style-type: none"> Examines unintended results
<ul style="list-style-type: none"> Reports progress and provides alerts with regard to problems 	<ul style="list-style-type: none"> Provides lessons, highlights significant accomplishment or program potential, and offers recommendations for improvement

*2004 World Bank

To summarise, monitoring provides the information on where the NSDP is at any given time (and over time) relative to respective targets for each of the NSDP Policy Objectives. On the other hand evaluation describes why targets (and Policy Objectives) are or are not being met.

This focus on targets provides for a reporting format that is concise and results based, resulting in a user friendly report that can be disseminated to all stakeholders for review. As described by **Figure 3**, above, both the monitoring and evaluation components are necessary for the report to be thorough.

3.1 Results Based NSDP M&E

The critical elements of the NSDP M&E Results Based Framework include:

- Baseline data to describe the problem or situation prior to NSDP
- Indicators aligned to Targets and Policy Objectives
- Ongoing data collection on Indicators to relate to achievement
- Systemic reporting with qualitative and quantitative information
- M&E matrixes completed in coordination with line ministries and other stakeholders
- Information on success or failure reaching targets and achieving Policy Objectives

A results-based M&E framework provides feedback on actual outcomes and goals of government actions. The NSDP results-based M&E framework (through the ADR) will review and assess the following questions:

- Given the goals (Targets and Policy Objectives) are they being achieved?
- How can achievement be proven?

The NSDP results-based M&E framework, is a continuous process of planning, monitoring (collecting data) and evaluation (analysing data) in order to determine how well Vanuatu, through the NSDP is reaching expected results. **Figure 4** illustrates the continuous NSDP M&E process. This process includes the development of the Annual Development Report which is explained more thoroughly in the next section of this document.

Figure 4: NSDP M&E Flow Process Diagram

4. ANNUAL DEVELOPMENT REPORT & NSDP REPORTING

The Annual Development Report is a National Level summary report. The Annual Development Report (ADR) was developed in 2009 as the method to report on the progress of the PAA and will continue to be the reporting mechanism for the NSDP. The ADR reports on, and directs the Development Pathway for Vanuatu through regular review of progress towards the National Development Goals.

The ADR is designed as a broad high level report and references ministry reports as needed to provide stakeholders with further details and information. Ministry level information is linked to the NSDP and

the ADR through the planning process. The National Planning Framework (NPF) is aligned to the National M&E Framework in order to:

- Align the implementation of the NSDP and accompanying M&E framework
- Account for the alignment and localisation of the Sustainable Development Goals
- Integrate M&E principles into national planning and policy making

The focus of the report is the progress of the National Sustainable Development Plan 2016-2030 focusing on the status of the 15 Goals as evaluated by improvement regarding the relevant Policy Objectives. Progress regarding the Policy Objectives is identified by the status measured towards the Targets. Progress is not measured against the baseline, rather the baseline is used as a point of reference for evaluation. The ADR focuses on:

- Summarising results with regard to targets (qualitative and/or quantitative) to date
- Providing analysis for achievement of targets
- Providing indications of actual or potential roadblocks

This information is collected and evaluated using the M&E matrixes (see Annex 1). The matrix is separated into both a Monitoring Section and an Evaluation Section. DSPPAC, in coordination with the implementing agencies will complete the details for each policy objective. The matrixes are included as annexes at the end of the ADR Summary Report.

4.1 ADR Format

The body of the report centers on the 15 NSDP Goals and the corresponding Policy Objectives. This centers the ADR on the National focus of the NSDP. The 15 NSDP Goals are allocated as follows:

- Society Pillar: (6 Goals)
- Environment Pillar: (5 Goals)
- Economy Pillar: (4 Goals)

Each Goal is allocated 2 pages for analysis. All other related information, including the reporting matrixes, is located in the ADR annexes.

4.1.1 The Status of Each Goal

The ADR is centred on providing an update of the NSDP through an analysis of the 15 Goals. Firstly, using feedback collected via the Matrixes, the ADR shall identify the status for each of the targets as measured by the indicators. The methodology for evaluating the status of each goal is based on the evaluation of the progress of the targets. Each level of progress (excellent/medium/some/no progress) is assigned a value of 1-4 (1 being no progress and 4 being excellent progress). The values assigned will be totaled and the divided by the total number of targets. The average value will determine the status of the Goal using the same scale. The values will be rounded up or rounded down as necessary.

The overall status of the targets for each goal provides the status of the goal. This is the primary analysis of the ADR. Secondly the status of the targets also informs the analysis of each Policy Objective. This analysis is the secondary analysis of the ADR and provides a breakdown of how the status of the targets impacts each of the individual policy objectives for each goal.

This format provides the opportunity for DSPPAC to present the current situation and provide analysis based on targets, but also allows stakeholders to quickly review and make judgments for themselves on progress. This M&E format promotes discussion of what is working and what is not, and provides the opportunity for stakeholders, decision makers and development partners to find common ground for addressing challenges and success. The analysis indicates progress as follows:

- Excellent Progress (75% -100% Progress to achieving the target) (4)
- Medium Progress (50%-74% Progress to achieving the target) (3)
- Some Progress (Less than 50% Progress to achieving the target) (2)
- No Progress to achieving the target or no data (1)

The ADR analysis focuses on status of each Goal. The ADR is designed to be user friendly for all stakeholders, including those not specifically familiar with the entire NSDP. The ADR analysis for each goal begins with an overview:

- “There are XX targets in a total for the XX policy objectives for this Goal”

This is followed by a short summary of the status of the Goal based on the evaluation of the targets:

- “Based on the evaluation of the progress towards the targets it is determined that Vanuatu is making *excellent/medium/some/no* progress towards this Goal. However there are both success and challenges to meeting this goal including...”

Next an overview of each Policy Objective is presented as broken down, and by the color coded progress of the targets:

- Targets making excellent progress (green)
- Targets making some medium progress (yellow)
- Targets making some progress (black)
- Targets making no progress, or have regressed (red)

Using this information a short summary of success and challenges is provided for each Policy Objective. Where SDGs indicators are aligned with the NSDP indicators the status of the SDG is included. SDG alignment is also included in the M&E Tables. The SDGs are reported on simultaneously with the NSDP.

The 17 Sustainable Development Goals (SDGs) and 169 targets will be monitored and reviewed using a set of global indicators. The global indicator framework, has been agreed to by UN Statistical Commission. The Economic and Social Council adopted these indicators in June 2017.

Vanuatu, as has other Governments, has developed national indicators, as part of the NSDP M&E Framework to align the monitoring progress of the SDGs with National Goals and Targets. The SDGs are included in the NSDP M&E tables where they are aligned with NSDP Policy Objectives and related targets and indicators. The SDGs have been organized by Tiers (through an international consultative process) indicating the level of availability of data for each specific SDG indicator.

This format provides for the stakeholders an understanding of the status of (1) the Status of the 15 NSDP Goals and (2) A summary of the status of each of policy objectives. The first section of the ADR is a colour coded page identifying, in a “snapshot format” the status of each Goal based on the methodology presented earlier in this document.

4.1.2 Example ADR Analysis Format

SOCIETY GOAL 3: A healthy population that enjoys a high quality of physical, mental, spiritual and social well-being

There are a total of 12 Targets for the four Policy Objectives for this Goal:

- There are 3 Targets that have made **Excellent Progress** as to reaching the 2030 Target
- There are 7 Targets that have made **Medium Progress** as to reaching the 2030 Target
- There are 1 Targets that have made **Some Progress** as to reaching the 2030 Target
- There are 1 Targets that have made **No Progress/No Data** as to reaching the 2030 Target

Current Status of Goal SOC 3

Based on the evaluation of the progress towards the targets it is determined that Vanuatu is making **medium progress** towards this Goal. However, there *remain challenges and successes* to meeting this goal including...

Medium Progress was identified by totaling the weighting of each of the targets (total 36) and divided by the total number of targets (total 12). $36/12 = 3$ – Medium Progress

Overview of SOC 3 Policy Objectives

SOC 3.1: Ensure that the population of Vanuatu has equitable access to affordable, quality health care through the fair distribution of facilities that are suitably resourced and equipped

- Target: 2020-Vanuatu has a density of 24 HWs per 10,000 population
- **Status: 14.6/10,000 (2015) (4)***

*Weighting

- Target: By 2020, the national maternal mortality ratio has been reduced to less than 80 per 100,000 live births (moving average) (SDG)*
- **Status 82/100,000 (2015) (4)**

*SDG-aligned indicator

- Target: By 2020, 50% of Government owned Health Facilities are compliant with Role Delineation and essential health service minimum standards for human resourcing, infrastructure functional space and equipment requirements (SDG)
- **Status: 47% compliant (2016) (3)**

Analysis for SOC 3.1: Success/challenges

SOC 3.2: Reduced the incidence of communicable and non-communicable diseases

- Target: By 2020, the prevalence of diabetes amongst the adult population is <13.1%, and diabetic related lower-limb amputations are < 23 total cases (excluding digits) (SDG)
- **Status: Prevalence 13.1% (2016) Amputations 23 cases (2015) (4)**

- Target: By 2020, the incidence of TB in Vanuatu has reduced by 20% compared to 2015 (SDG)
- **Status: 49 per 100,000 (2015) including 13 new and relapse cases (3)**

- Target: By 2020, the annual parasitic incidence rate (API) for all cases of malaria is no more than 1 per 1,000 population nationally (SDG)
- **Status: 4/1,000 (2015) (3)**

Analysis for SOC 3.2: Success/challenges

SOC 3.3: Promote healthy lifestyle choices and health seeking behaviour to improve population health and well-being

- Target: By 2020, 95% of population of children aged between 12/23 months received three doses of combined diphtheria, tetanus toxoid & pertussis vaccine in a given year, administered by a trained health professional (SDG)
- **Status: 80.5% (2015) 86 % (2014), will also include the % as per target (3)**

- Target: By 2020, the prevalence of obesity amongst the adult population is <32.9%
- **Status: 32.9% (2015) (3)**

- Target By 2020, under-5 mortality rate is reduced to at least as low as 29 per 1,000 live births (SDG)
- **Status: 31/1000 (2015) (1)**

Analysis for SOC 3.3: Success/challenges

SOC 3.4: Build health sector management capacity and systems to ensure the effective and efficient delivery of quality services that are aligned with national directives

- Target: By 2020, 100% of units have current strategic plans in place that link with HSS
- **Status 6 complete as of (2015) (3)**

- Target: By 2020, 50% of Corporate positions within MOH filled on permanent basis (SDG)
- **Status: 20.4% (2016) (3)**

- Target: % attributes attained based on International Health Regulation Index(IHR)Component 2 (SDG)
- **Status: TBD (2016) (2)**

Analysis for SOC 3.4: Success/Challenges

4.1.3 Example ADR Snapshot

The following example page provides a snapshot overview of the status of each of the 15 Goals

GOALS: EXCELLENT PROGRESS		
Society Pillar: <i>- List relevant Goals</i>	Environmental Pillar:	Economy Pillar:

GOALS: MEDIUM PROGRESS		
Society Pillar: <i>- List relevant Goals</i>	Environmental Pillar:	Economy Pillar:

GOALS: SOME PROGRESS		
Society Pillar: <i>- List relevant Goals</i>	Environmental Pillar:	Economy Pillar:

GOALS: NO PROGRESS		
Society Pillar: <i>- List relevant Goals</i>	Environmental Pillar:	Economy Pillar:

5. ANNEX 1: M&E Data Matrix

The matrix is used by DSPPAC to gather information and evaluate the status of the targets in coordination with the implementing agencies. There is one matrix for each Policy Objective and these are included as annexes to the ADR. This provides all of the information that is related to the analysis that is included in the ADR Chapters and provides the information for those who want further details

SOCIETY 3: A healthy population that enjoys a high quality of physical, mental, spiritual and social well-being				
POLICY OBJECTIVE SOC 3.1: Ensure that the population of Vanuatu has equitable access to affordable, quality health care through the fair distribution of facilities that are suitably resourced and equipped				
Monitoring			Evaluation	
Indicators (From NSDP) (Remain Constant)	Current Status (Ministries to Complete)	Target (From NSDP) (Remain Constant)	Progress and Gaps (M&E to Complete)	Success and Challenges (Ministries to Complete)

SOCIETY 6: A dynamic public sector with good governance principles and strong institutions delivering the support and services expected by all citizens of Vanuatu				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
SOC 6.1: Enhance the capacity and accountability of public officials, and ensure the impartiality and effectiveness of performance management systems	SOC 6.1.1 Reduction in annual Employment Disciplinary Board decisions	By 2030 reduce by 50%	Baseline , 2017 Source - PSC	16.6 16.6.1 (Tier 1) 16.6.2 (Tier 3)
	SOC 6.1.2 Annual number of public officials receiving relevant qualifications through VIPAM and other government programs	By 2030 increase by 50%	Pending baseline Source – VIPAM, PSC	
	SOC 6.1.3 Reduction in level of subsidies/grants to SOEs	By 2030 - 0		
SOC 6.2: Reform State Owned Enterprises and statutory bodies to improve performance that is aligned to government priorities	SOC 6.2.1 Proportion of SOEs and Statutory bodies submitting annual reports to their boards of directors	By 2030 – 100%		
SOC 6.3: Enact political reforms that promote stability, accountability, constituency representation and civic engagement	SOC 6.3.1 Proportion of eligible population reporting to have voted in last election	Target TBD after baseline established	NSDP Baseline survey	16.7 16.7.2 (Tier 3)
	SOC 6.3.2 Proportion of population with an overall positive assessment of their local elected officials	Target TBD after baseline established	NSDP Baseline survey	
	SOC 6.3.3 Number of MPs submitting annual financial accountability report	By 2030 - 52		
SOC 6.4: Strengthen national institutions to ensure that are cost-effective and well-resourced to deliver quality public services	SOC 6.4.1 Proportion of BP objectives met as reported in department ARs	By 2030 100%	Baseline: 2017 total of 46 departments and rate at approx. 60% Source PSC records	16.6 16.6.1 (Tier 1)
SOC 6.5: Strengthen local authorities and municipal institutions to enable decentralised service delivery	SOC 6.5.1 Change in annual budget going to Provinces, Municipalities towards operations/programs (Devolution of funding authority)	By 2030 increase by 10%	Source: MFEM	12.7 12.7.1 (Tier 3)
	SOD 6.5.2 Proportion of provinces with up-to-date three year “rolling” plans submitted to DLA	By 2030 100%	Source: DLA	16.6 16.6.1 (Tier 1)

SOC 6.6: Strengthen physical planning and management to meet the service delivery needs of a growing population	SOD 6.6.1 Proportion of declared physical planning areas that have a physical plan	By 2030 1 planner in each area	Source: DLA	11.a 11.a.1 (Tier 3) 11.b 11.b.1 (Tier 3)
SOC 6.7: Guarantee the public's right to information	SOC 6.7.1 Proportion of population utilising media outlets for news including: newspapers, mobile phones, radio, television, and internet	<ul style="list-style-type: none"> ▪ By 2030 radio- 100% ▪ By 2030 Newspapers – 60% ▪ By 2030 TV – 60% ▪ By 2030 Internet – 60% ▪ By 2030 – 100% mobile phone ownership (15 yr+) 	Baseline: 2012-Radio 84%, Word of mouth 30%, Newspapers 34%, TV 22%, Internet 3% Sources: PACMAS report/VBTC (75% of population surveyed, 6 provinces) World Bank report (TRR) 2016 192.000 people own mobile phone	16.10 16.10.1 (R) (Tier 3) 16.10.2 (Tier 2)
	SOC 6.7.2 Proportion of data collected from requests acted upon by RTI officers in each government agency	By 2030 13 ministries	Baseline: 2017 and pending sector roll out Notes: Will be based on annual total for the 18 months duration of RTI Unit	
SOC 6.8: Coordinate donor resources to align with national objectives	SOC 6.8.1 Percentage of aid the government sector reported on the government's budget	By 2030 – 85%	Baseline: 2010 Vanuatu rankings Source: OECD Notes: Vanuatu is already reporting as per Paris Declaration framework	10.b 10.b.1 (Tier 1/2) 16.6 16.6.1 (Tier 1)
	SOC 6.8.2 Percentage of aid for the government sector using Vanuatu government PFM systems	By 2030 – 65%		
	SOC 6.8.3 Percentage of aid for the government sector using Vanuatu government procurement systems	By 2030 –65%		
SOC 6.9: Strengthen research, data and statistics for accountability and decision-making	SOC 6.9.1 NSDP data reviewed annually	Annual Development Report	Baseline 2017 NSDP has 209 indicators and 122 SDG indicators aligned	17.9 17.9.1 (Tier 1) 17.18 17.18.1 (Tier 3) 17.18.2. (R) (Tier 3)
	SOC 6.9.2 Percentage of NSDS strategic objectives achieved	By 2030 75% of the NSDS Strategic Objectives achieved		

NSDP Pillar 2: Environment Pillar M&E Tables

ENVIRONMENT 1: A nation that ensures our food and nutrition security needs are adequately met for all people through increasing sustainable food production systems and improving household production				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ENV 1.1: Increase agricultural and fisheries food production using sustainable practices to ensure sufficient access to affordable and nutritious food	ENV 1.1.1 Proportion of households engaged in production of food for own consumption	Target TBD after baseline established		2.3 2.3.1 (Tier 3) 2.3.2 (Tier 3)
	ENV 1.1.2 Up to date data on primary production (agriculture, livestock, forestry, fisheries, biosecurity) available for analysis and informed decision-making and reporting	Annual report and 6 monthly report supported by sector production data VNSO		2.4 2.4.1 (Tier 3)
	ENV 1.1.3 Average incidence of food poverty at the household level (Food Poverty Line)	Decreased incidence	VNSO data	14.7 14.7.1 (Tier 3)
ENV 1.2: Promote <i>aelan kaikai</i> as a key part of a sustainable and nutritionally balanced diet	ENV 1.2.1 National food guidelines directing food security and nutrition promotional activities (including <i>aelan kaikai</i>) completed and operational	<ul style="list-style-type: none"> ▪ National food guidelines completed by 2019 ▪ Proportion of HH consuming island food (NSDP Baseline Survey) 	Target TBD after baseline established	12.8 12.8.1 (Tier 3)
ENV 1.3: Reduce reliance on food imports through import substitution for food products that can be produced domestically	ENV 1.3.1 Total annual volume of imports of food and products targeted by DARD as those that can be produced domestically (including 'value-added products')	Target TBD after baseline established	NSDP Baseline survey or Agriculture Census	2.b 2.b.1 (Tier 2) 2.b.2 (Tier 1)
	ENV 1.3.2 Domestic food price level	Target TBD after baseline established	NSDP Baseline survey	2.3 2.3.1 (Tier 3) 2.3.2 (Tier 3)
	ENV 1.3.3 Food Price Inflation Rate or Food Price Index compared to the national consumer price index (how much are prices for food going up or down, relative to all prices in the country-based on VNSO data)	Target TBD after baseline established	NSDP Baseline survey	2.c 2.c.1 (Tier 3)
ENV 1.4: Improve access to appropriate technology, knowledge and skills in food	ENV 1.4.1 Total FADs per 1,000 population by province	100 FADs distributed throughout Vanuatu by 2030	Based on estimated 2030 population of 354,337 this would	12.8 12.8.1 (Tier 3)

production, preservation and storage			mean 0.28 FADs per 1000 population	12.a 12.a.1
	ENV 1.4.2 Total number of people receiving training in food storage and preservation per year in MALFFB led, NGO or partnered initiatives	Of all training conducted by MALFFB and NGOs, at least 5% has to be on food preservation and storage		14.4 14.4.1 (R) (Tier 1)
	ENV 1.4.3 Establishment of land use capability mapping systems to determine which crops and farming systems are best suited to different areas	Land-use capability map developed for 100% provinces		
ENV 1.5: Enhance traditional agricultural practices, focusing on disaster risk reduction and climate change adaptation	ENV 1.5.1 Proportion of producers across the productive sector that have undergone Agro-Met training	Agriculture Census information required		2.3 2.3.1 (Tier 3) 2.3.2 (Tier 3)
	ENV 1.5.2 Crop diversity index with a focus on fruit and vegetables (average number of varieties planted of crops by province)	VNSO assistance required for understanding baseline on crop diversity	CDI=0 when only one crop is grown/household	
	ENV 1.5.3 Proportion of farmers involved in integrated farming practices	Agriculture Census information required		

ENVIRONMENT 2: An economy which fosters sustainable growth and development through low impact industries and modern technologies to ensure the well-being of future generations				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ENV 2.1: Increase access to knowledge, expertise and technology to enact our blue-green growth strategies	ENV 2.1.1 Proportion of "blue-green growth friendly" national policies fully implemented	By 2030 – 100% of new development projects are green infrastructure projects	Source: Development projects database DSPPAC, Aid Coordination	7.a 7.a.1 (Tier 3) 15.9 15.9.1 (Tier 3) 15.a 15.a.1 (Tier 1)
ENV 2.2: Ensure new infrastructure development activities cause minimal disturbance to the natural land and marine environment	ENV 2.2.1 Number of development projects complying with EIA requirements	By 2030 - 50% of development projects are complying with EIA requirements	Baseline 2016 85 applications received in 2016	11.c 11.c.1 (Tier 3)
	ENV 2.2.2 No. of environmental guidelines developed	By 2030 - Six environmental guidelines in place	<ul style="list-style-type: none"> ▪ Under relevant Acts i.e. EPC, Pollution (Control), Ozone ▪ DEPC has 1 environmental guideline in place for development activities (guide to completing application form) 	
ENV 2.3: Promote renewable sources of energy and promote efficient energy use	ENV 2.3.1 Proportion of all imported lighting and refrigeration appliances that meet high energy efficiency standards	5% by 2020, 14% by 2030		7.1 7.1.2 (Tier 1) 7.2 7.2.1 (R) (Tier 1)
	ENV 2.3.2 Proportion of households using renewable energy technology as main source of lighting	100% of households using renewable energy technology as the main source of lighting		7.3 7.3.1 (R) (Tier 1)
	ENV 2.3.3 Percentage of grid-based electricity generated from renewable energy sources	100% of grid-based electricity generated from renewable energy sources		7.b 7.b.1 (Tier 3)
ENV 2.4: Reduce waste and pollution through	ENV 2.4.1 Number of controlled wasted disposal facilities	At least three provinces have a controlled waste disposal facility	<ul style="list-style-type: none"> ▪ Two controlled waste disposal facilities in 	11.6 11.6.1 (Tier 2)

effective waste management and pollution control	ENV 2.4.2 Proportion of vehicles that comply with emission standards	Vehicle emission standards included in annual roadworthy inspections	municipalities (landfill in Port Vila and a controlled waste dump in Luganville)	11.6.2 (Tier 1)
	ENV 2.4.3 Proportion of revised National Waste Management Strategy and Action Plan implemented	At least 90% of activities is the National Waste Management Strategy and Action Plan are implemented	<ul style="list-style-type: none"> ▪ No controlled waste disposal facilities in provinces 	
ENV 2.5: Strengthen environmental institutions and governance to meet national and international obligations	ENV 2.5.1 Proportion of targets met in National Environment Policy and Implementation Plan 2016-2030	All 2020 targets in the National Environment Policy and Implementation Plan 2016-2030 met		13.2 13.2.1 (R) (Tier 3)
	ENV 2.5.2 Proportion of environmental obligations within international conventions and treaties met	70% of environmental obligations within international conventions and treaties are incorporated into Corporate Plans and reported on in Annual Reports		
ENV 2.6: Ensure adequate financial resources to support our sustainable development aspirations	ENV 2.6.1 Proportion of funding requested by DEPC in support of sustainable development approved through NPP/percentage of government expenditure for environmental activities	Government expenditure for environmental activities has increased by at least 15 million vatu from the 2016 baseline	Baseline Year and Amount: 2016, VT30,173,849 2016 Source: GoV Budget Book 2016 Vol. 1	13.a 13.a.1 (R) (Tier 3) 17.7 17.7.1 (Tier 3)
	ENV 2.6.2 Amount deposited in the Environmental Trust Fund	Environmental Trust Fund is operational		

ENVIRONMENT 3: A strong and resilient nation in the face of climate change and disaster risks posed by natural and man-made hazards				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ENV 3.1: Institutionalise climate change and disaster risk governance, and build institutional capacity and awareness	ENV 3.1.1 Proportion of government ministries with policies, budgets, and legislation for CC & DRM	100% of government ministries with policies, budgets and legislation for CC & DRM		13.2 13.2.1 (R) (Tier 3)
	ENV 3.1.2 Institutional strengthening of NAB, Department of Climate Change and other MoCC departments	100% of DoCC and NAB secretariat staff financed by the government		
	ENV 3.1.3 Alignment of sector stakeholders' programs and CC & DRM policies and legislation	100% of sector stakeholders are aware of CC & DRM policies and legislation		
		50% of sector stakeholders have formal arrangements with the government		
ENV 3.2: Improve monitoring and early warning systems	ENV 3.2.1 Establishment of multi-hazard warning systems with maintenance plans in place	100% of provinces with multi-hazard warning systems		13.1 13.1.1 (Tier 2) 13.1.2 (R) (Tier 2)
	ENV 3.2.2 Proportion of population with access to technologies that convey early warnings	80% of the population has access to technologies that convey early warnings		
	ENV 3.2.3 Increased knowledge and scientific research in atmospheric and earth sciences	Increase in publications or research proposals in atmospheric and earth sciences		13.3 13.3.1 (Tier 3) 13.3.2 (Tier 3) ▪
ENV 3.3: Strengthen post-disaster systems in planning, preparedness, response and recovery	ENV 3.3.1 Number of support plans available to communities for coordination, planning, preparedness, response and recovery	80% of communities have access to support plans		13.b 13.b.1)
	ENV 3.3.2 Percentage of climate change and disaster affected communities with durable solutions	60% of climate change and disaster affected communities with durable solutions		
	ENV 3.3.3 Number of multi-hazard and risk maps to improve Post-Disaster Needs Assessment	1 national multi-hazard and risk map		
ENV 3.4: Promote and ensure strengthened resilience and adaptive capacity to climate	ENV 3.4.1 Percentage of public schools using the climate change and disaster risk reduction modules in national curriculum at all levels	85% of public schools using the climate change and disaster risk reduction modules in national curriculum at all levels		13.3 13.3.1 (Tier 3) 13.3.2 (Tier 3) ▪

related, natural and man-made hazards	ENV 3.4.2 Number of communication and partnership activities and awareness programs established targeting issues such as climate change adaptation and resilience	60% of islands covered by awareness programs targeting climate change adaptation and resilience		
ENV 3.5: Access available financing for climate change adaptation and disaster risk management	ENV 3.5.1 Proportion of annual spending on climate change adaptation and disaster risk management funded with budget support from donor partners to the government	50% of NAB-endorsed project funding is channelled through government systems		13.a 13.a.1 (R) (Tier 3)
	ENV 3.5.2 Number of climate and disaster finance funds to which Vanuatu is formally accredited	Vanuatu is accredited to at least two climate and disaster finance funds, the Adaptation Fund and the Green Climate Fund		
	ENV 3.5.3 Amount of climate and disaster finance used for community programs and activities through external support	VT10 Billion of external climate and disaster finance used for community programs and activities		

ENVIRONMENT 4: A nation which utilises and sustainably manages our land, water and natural resources				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ENV 4.1: Strengthen local authorities and municipal planning authorities to enact and enforce land use planning laws and regulations	ENV 4.1.1 Proportion of declared physical planning areas that have a physical plan	100% of all physical planning areas declared in or before 2016 have a physical plan in place		11.a 11.a.1 (Tier 3)
	ENV 4.1.2 Proportion of directives of the national land use planning policy implemented	50% of the directives to be implemented by 2025		11.b 11.b.1 (Tier 3) 11.b.2 (Tier 2)
ENV 4.2: Protect vulnerable forests, watersheds, catchments and freshwater resources, including community water sources	ENV 4.2.1 Number of declared Water Protection Zones	6 Water Protection Zones declared		12.2 12.2.1 (Tier 2)
	ENV 4.2.2 Establishment of GIS mapping relevant to the management of forest activities	By 2030 100% of forest areas of significance mapped	Comes from National Forest Policy as something to achieve: Develop accurate GIS data and maps relevant to the management of forest activities, could be integrated with ENV1.4 Land Use Capability Mapping	15.1 15.1.1 (R) (Tier 1) 15.1.2 (Tier 1) 15.2 15.2.1 (Tier 3)
ENV 4.3: Prevent land degradation and downstream environmental damage from mineral resource extraction	ENV 4.3.1 Proportion of extraction activities complying with EIA requirements	90% of extraction activities are complying with EIA requirements	NEPIP	15.3 15.3.1 (R) (Tier 3) 15.4 15.4.1 (R) (Tier 1) 15.4.2 (Tier 2)
ENV 4.4: Promote the sustainable development of the fisheries sector that values the protection and conservation of marine and freshwater resources	ENV 4.4.1 Level of compliance by Vanuatu with respect to its national fishing fleet within the Regional Fisheries Management Organisations	80% compliance of national fishing fleet	Based on Fisheries Business Plan	14.4 14.4.1 (R) (Tier 1) 15.1 15.1.2 (Tier 1)
	ENV 4.4.2 Number of integrated coastal management plans developed and implemented	40 integrated coastal management plans developed and operational		

ENV 4.5: Reduce and prevent the degradation and erosion of foreshore and coastal areas	ENV 4.5.1 Total number of approved Fisheries Management Plans for designated fisheries	20 approved Fisheries Management Plans for designated Fisheries	Based on Fisheries Business Plan	14.5 14.5.1 (Tier 1)
	ENV 4.5.2 Number of commercial sand mines	By 2025, there is a ban on commercial coastal sand mining in 6 sites		
	ENV 4.5.3 Number of places where detailed geo-scientific information has been collected	<ul style="list-style-type: none"> ▪ 100% compliance with issued sand mining occasional permits ▪ 100% foreshore development permits with consent 	<ul style="list-style-type: none"> ▪ Foreshore development consent (MoIA) ▪ Foreshore Development Act [CAP.] 	
ENV 4.6: Reduce deforestation and ensure rehabilitation and reforestation is commonplace	ENV 4.6.1 Annual estimated area (square km) of reforestation and rehabilitation	20,000 ha of planted forests by 2020	Planning and Mapping Unit database, presented in Annual Reports	15.2 15.2.1 (Tier 3)
	ENV 4.6.2 Proportion of licensees harvesting within their allocated quota or Proportion of licensee operations being monitored	80% compliance of licensees with maximum allowable quota or 75% of forestry licensee operations being monitored to ensure compliance with quotas	<ul style="list-style-type: none"> ▪ Deforestation considered in REDD+ project currently in Preparation phase. ▪ 2018 outcomes of studies will guide Implementation and will then be able to consider indicators/targets 	
ENV 4.7: Build capacity and support local communities to manage natural resources	ENV 4.7.1 Total annual outreach and awareness activities undertaken by or in partnership with the DEPC	By 2030 6 provincial offices established	Baseline 2016 – 2 offices (SHEFA, SANMA) DEPC AR	11.3 11.3.2 (Tier 3) 11.a 11.a.1 (Tier 3)

ENVIRONMENT 5: A nation committed to ensuring the conservation and sustainable management of our biodiversity and ecosystems				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ENV 5.1: Protect biodiversity and ecosystems and their significant role in our culture, society and environment	ENV 5.1.1 Proportion of NBSAP and NISSAP targets met	At least 90% of the activities in the NISSAP are implemented	Baseline: DEPC has one environmental guideline in place for development activities (guide to completing application form)	15.9 15.9.1 (Tier 3)
	ENV 5.1.2 Total number of environmental guidelines in place	6 environmental guidelines in place		
ENV 5.2: Create and manage conservation and protected areas	ENV 5.2.1 Total number of registered CCAs	10 registered CCAs in Vanuatu		14.2 14.2.1 (Tier 3) 15.1 15.1.1 (R) (Tier 1) 15.1.2 (Tier 1)
	ENV 5.2.2 Proportion of community management committees implementing their CCA management plan	By 2030 100%		
ENV 5.3: Support local conservation and protection of endangered, threatened or endemic species and ecosystems including through traditional knowledge and practices	ENV 5.3.1 Proportion of population with knowledge of the names of local flora and fauna	By 2020 a baseline of the current understanding of traditional knowledge and practices is established		14.7 14.7.1 (Tier 3) 15.5 15.5.1 (Tier 1) 15.9 15.9.1 (Tier 3)
	ENV 5.3.2 Number of threatened species legally protected	All threatened species identified on the IUCN Red List are protected by national legislation	IUCN Red List has 138 species. Of this 138, 13 are legally protected (excluding CITES)	
ENV 5.4: Protect our borders and environment through effective customs and biosecurity services	ENV 5.4.1 Proportion of incoming planes and sea vessels cleared through Biosecurity annually	100% of international flight arrivals and 70% of international sea craft arrivals cleared by Biosecurity Vanuatu annually	<ul style="list-style-type: none"> ▪ Biosecurity/also need info re total number of flights ▪ Biosecurity/also need info re total number of ship arrivals 	15.8 15.8.1 (R) (Tier 3)
ENV 5.5: Increase awareness on biodiversity conservation and environmental protection issues across government and publicly	ENV 5.5.1 Number of model schools implementing environmental programmes	At least one school in each province is an environment model school and environment ambassador		13.3 13.3.1 15.9 15.9.1 (Tier 3) (aligns with PO)

<p>ENV 5.6: Enhance environmental monitoring, evaluation and research with relevant, open and transparent data sharing among relevant agencies</p>	<p>ENV 5.6.1 Proportion of government agencies using a central information sharing system for environment data</p>	<p>1 central information sharing system for environment data is established</p>	<p>No central information sharing system for environment data. UNDP/GEF funded project focusing on this has commenced</p>	<p>15.9 15.9.1 (Tier 3)</p> <p>15.a 15.a.1 (Tier 1)</p>
---	---	---	---	---

NSDP Pillar 3: Economy Pillar M&E Tables

ECONOMY 1: A stable and prosperous economy, encouraging trade, investment and providing economic opportunities for all members of society throughout Vanuatu				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ECO 1.1: Promote stable growth through responsible fiscal, and a counter-cyclical monetary policy targeting stability in inflation	ECO 1.1.1 Change in underlying inflation rate (CPI analysis)	By 2030 - < 4%	Stability for Monetary	8.1 8.1.1 (R) (Tier 1)
	ECO 1.1.2 GDP Growth Rate (annual/trends)	By 2030 – increase by 4%	Tax reform growth	
ECO 1.2: Improve government revenue generation	ECO 1.2.1 Change in government revenue (GFS Tables)	By 2030 – increase by 30%	<ul style="list-style-type: none"> ▪ Tax reform, ▪ Employment ▪ Wage increase 	17.1 17.1.1 (Tier 1) 17.1.2 (Tier 1)
ECO 1.3: Ensure public debt is sustainably managed and finances are directed towards projects with positive economic returns	ECO 1.3.1 Change in national budget position (deficit/surplus) (GFS Tables)	By 2030 increase by 15%	Debt Report Source MFEM	17.4 17.4.1 (Tier 1)
	ECO 1.3.2 Debt ratio to GDP (inclusive of SOE generated debt)	By 2030 fall by 30%	Revenue offset the 30%	
ECO 1.4: Increase trade and investment opportunities and reduce barriers, including through the use of Aid-for-Trade	ECO 1.4.1 Value and volume of national trade/merchandise trade	By 2030 increase of 20%	Trade agreement Reduce trade deficit	8.a 8.a.1 (Tier 1) 17.12 17.12.1 (Tier 1)
	ECO 1.4.2 Current Accounts balance change	By 2020, improve by 20%	RBV Quarterly Report	
ECO 1.5: Increase access to markets for Vanuatu exports	ECO 1.5.1 Benefits/value accrued through various trade agreements	By 2020, exports increase by 20%	VNSO Trade data report	17.11 17.11.1 (Tier 1)
	ECO 1.5.2 Trade by trade agreement (value)	By 2020, exports increase by 15%	VNSO Trade data report	
	ECO 1.5.3 Balance of trade by major partner countries	By 2020, exports increase by 20%	VNSO Trade data report	
ECO 1.6: Require all new trade agreements to demonstrate tangible benefits in the national interest	ECO 1.6.1 Trade agreement analysis reports	By 2030 improve by 15%	VNSO Trade data report	10.a 10.a.1 (Tier 1) 17.10 17.10.1 (Tier 1)
	ECO 1.6.2 Total estimated value of trade agreement as proportion of GDP	By 2030 increase by 15%	Proportion to GDP will increase	
ECO 1.7: Stimulate economic diversification to spread the benefits of growth and increase economic stability	ECO 1.7.1 Level of production of major commodities to include cocoa and copra	By 2030 increase 10-15% of the proportion	Proportion to GDP will increase	8.2 8.2.1 (Tier 1)

	ECO 1.7.2 Change in volume of business licenses issued to Ni-Vanuatu	By 2030 increase of 40% Ni-Vanuatu licenses	Proportion to GDP will increase	8.3 8.3.1 (Tier 2)
ECO 1.8: Ensure financial sector stability and make financial services affordable and accessible for all through pursuing financial inclusion strategies	ECO 1.8.1 Total number of new users of financial services annual, acknowledging pop growth (number accounts opening/year)	By 2030 30% increase	RBV awareness and training	8.10 8.10.1 (Tier 1) 8.10.2
	ECO 1.8.2 Interest Rate level (average bank rate)	By 2030 less than 15% interest rate	RBV Quarterly Report	
	ECO 1.8.3 Deposit ratios	By 2030 increase 6-10% deposit ratio	NBV Deposit to increase 6 – 10%	
ECO 1.9: Promote financial literacy and consumer empowerment	ECO 1.9.1 Proportion of population with an understanding of very basic principles of personal financial accounting	By 2030 50% of population	Ongoing awareness through RBV and commercial banks	

ECONOMY 2: Sustainable and well-maintained infrastructure and services for all, through inclusive and effective partnerships				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ECO 2.1: Increase access to safe, reliable and affordable modern energy services for all that are increasingly generated from renewable sources and reduce reliance on imported fossil fuels	ECO 2.1.1 Proportion of households sourcing energy for lighting from renewable sources	100% by 2030	Baseline: 2009 Source: DoE baseline study Notes: More in line with the updated NERM targets which captures SMART information	7.1 7.1.1 (R) (Tier 1) 7.1.2 (Tier 1)
	ECO 2.1.2 Total number of mini-grid renewable energy systems in rural communities by province	5% by 2020 14% by 2030		
ECO 2.2: Ensure all people have reliable access to safe drinking water and sanitation infrastructure	ECO 2.2.1 Proportion of population with reliable access to safe drinking water	100% by 2030	UNICEF JMP Synthesis Report (2015 figure for Vanuatu's Access was at 78%)	6.1 6.1.1 (R) (Tier 1)
	ECO 2.2.2 Proportion of population with reliable access to improved sanitation facilities	100% by 2030		
ECO 2.3: Ensure that all public infrastructure, including health, education and sports facilities are safe, accessible, secure and maintained in compliance with building codes and standards	ECO 2.3.1 Proportion of new buildings in compliance with the building code	100% by 2030	VISIP, MIPU	9.1 9.1.1 (R) (Tier 3)
	ECO 2.3.2 Proportion of existing buildings repaired in compliance with the building code	100% by 2030	VISIP, MIPU	
ECO 2.4: Enact clear infrastructure governance, legislative frameworks and standards for resilient infrastructure and maintenance	ECO 2.4.1 Proportion of established road and building standards implemented	100% by 2030	VISIP, MIPU	
ECO 2.5: Improve partnerships and cost effective use of resources to ensure sustainable asset management and maintenance	ECO 2.5.1 Variance from approved asset management budget	Increase by VT100 bill over the next five years	Baseline: VT500 mill (2016)	9.a 9.a.1 (Tier 1)
ECO 2.6: Provide equitable and affordable access to efficient transport in rural and urban areas	ECO 2.6.1 Proportion of population with access to transport by road, sea and air	100% by 2030	Source: VNSO (ADR)	11.2 11.2.1 (Tier 2)
	ECO 2.7: Ensure compliance with international conventions and standards for safe and secure transport	ECO 2.7.1 Total number of external audits undertaken to establish compliance with conventions and standards and expose non-conformity	100% by 2030	

ECO 2.8: Establish effective partnerships that facilitate the development of the private sector and rural communities as service suppliers in the provision of transport and the infrastructure sector	ECO 2.8.1 Proportion of procurement contracts issued for Island Based Contractors, Community Based Contractors	5% increase by 2020	Baseline: 2015 – 427 Notes: This will see an increase of 21 new IBCs by 2020	17.17 17.17.1 (Tier 3)
		10% increase by 2030		
ECO 2.9 Increase use of and access to information and communications technologies, including on-line government services	ECO 2.9.1 % of population having access to broadband connection	100% by 2030	OGCIO TRR	9.c 9.c.1 (R) (Tier 1)
	ECO 2.9.2 Annual change in total number of users of on-line government services	80% by 2030	UAP target – as it covers whole ICT spectrum	17.8 17.8.1 (Tier 1)

ECONOMY 3: A strong rural economy that creates opportunities, enables the development of rural communities and increasingly contributes to national prosperity				
Policy Objective	SMART Indicators	Targets 2030	Baseline	SDG Alignment
ECO 3.1: Promote broad-based growth by strengthening linkages between tourism, infrastructure, agriculture and industry in rural areas and diversity the rural economy	ECO 3.1.1 Total annual value of tourism industry, infrastructure, agricultural production and industry as a proportion of GDP	By 2030 proportion increase by 40%	Support Government top priority for medium term	8.9 8.9.1 (Tier 2) 8.9.2 (Tier 2)
	ECO 3.1.2 Number of businesses participating in the annual agri-tourism festival by sector	20% increase in the number of businesses participating in the annual agri-tourism festival	Baseline year will be 2017 and responsibility of DARD	
ECO 3.2: Deepen the integration of the tourism sector into the rural economy to spread opportunities to rural communities	ECO 3.2.1 Average annual household income from tourism	By 2030 will increase by 10%	<ul style="list-style-type: none"> ▪ Upgrade of 3 main airports ▪ Increase in activity in the island 	
	ECO 3.2.2. Annual change in tourism by air and sea arrivals	By 2030 will increase by 30%		
	ECO 3.2.3 Proportion of visitors traveling to outer islands	By 2030 will increase by 10%		
ECO 3.3: Improve access to markets through quality infrastructure, utilities, storage and processing facilities in rural areas	ECO 3.3.1 Rate of Return to investments in rural infrastructure	By 2030 will increase by 5%	Business Survey VNSO	9.3 9.3.1 (Tier 3) 9.3.2 (Tier 3)
	ECO 3.3.2 Capacity utilisation rate: Manufacturing	By 2030 will increase by 10%	Business Survey VNSO	
	ECO 3.3.3 Total number of standard operational storage and processing facilities located in rural areas by province	By 2030 will increase by 10%	Increase of activity under MALFFB. AR should include solar freezers, solar dryers etc.	
ECO 3.4: Increase primary sector production, including through extension services and cooperatives	ECO 3.4.1 Total annual number of agricultural extension services per capita by province	<ul style="list-style-type: none"> ▪ By 2030 will increase by 12% (T) ▪ 1 officer per 500 households (A) 	Source: MALFFB AR	2.3 2.3.1 (Tier 3) 2.3.2 (Tier 3)
	ECO 3.4.2 Total number of rural producer cooperatives registered by province	By 2030 will increase by 20%	Increase of cooperatives in the islands	
ECO 3.5: Improve the collection, analysis and dissemination of market	ECO 3.5.1 Total annual number of rural economic analysis reports published	By 2030 will increase by 15%	<ul style="list-style-type: none"> ▪ Data captured, scope of coverage increased. 	2.c 2.c.1 (Tier 3)

data on the rural economy and communities			<ul style="list-style-type: none"> ▪ Needs to be cyclical and programed 	
ECO 3.6: Improve the provision of government services in rural areas	ECO 3..6.1 Average traveling distance to nearest school, health facility, police post by province	By 2030 will increase by 30%	Decentralisation policy in place	1.4 1.4.1 (R) (Tier 3)
	ECO 3.6.2 Number of controlled waste disposal facilities	3 provinces have a controlled waste disposal facility	<ul style="list-style-type: none"> ▪ Two controlled waste disposal facilities in municipalities (landfill in Port Vila and a controlled waste dump in Luganville). ▪ No controlled waste disposal facilities in provinces. 	11.a 11.a.1 (Tier 3)

ECONOMY 4: An enabling business environment, creating opportunities and employment for entrepreneurs throughout Vanuatu				
Policy Objective	SMART Indicators	Targets 2020	Baseline	SDG Alignment
ECO 4.1: Create an improved business environment with a stable regulatory framework, which promotes competition, protects consumers, attracts investment and reduces the costs of doing business	ECO 4.1.1 Growth in Gross Fixed Capital Formation	By 2020 10% increase (annual increase is 7%)	Target in Industry & Manufacturing	8.2 8.2.1 (Tier 1) 17.5 17.5.1
ECO 4.2: Strengthen strong linkages between urban and rural business and trade between islands	ECO 4.2.1 Proportion of rural households engaged in trade with family in urban centres	By 2020 increase 10% in proportion	Consumption export	11.a 11.a.1 (Tier 3)
ECO 4.3: Increase production and processing of niche commodities, and value addition to commodities in which Vanuatu enjoys a comparative advantage	ECO 4.3.1 Total number of processed local products produced per annum for domestic consumption and export	By 2020 increase 10%	Trade statistics VNSO	9.b 9.b.1 (Tier 2)
	ECO4.3.2 Ratio of processed export commodities (including coconut, kava, cocoa, coffee) to raw exports	By 2020 increase 15%	Trade statistics VNSO	
ECO 4.4: Improve and expand the range of sustainable tourism products and services throughout Vanuatu and strengthen links to local production	ECO 4.4.1 Proportion of registered hospitality institutions with rooms and services equipped with energy efficient lighting and appliances	By 2020 increase 20%	Labour Market Survey VNSO	8.9 8.9.1 (Tier 2) 8.9.2 (Tier 2)
ECO 4.5: Increase the number of decent, productive employment opportunities, particularly for young women and men, and people with disabilities	ECO 4.5.1 Employment cost index (ECI)	By 2020 increase 15%	Labour Market Survey VNSO	8.5 8.5.1 (Tier 2) 8.5.2 (R) (Tier 1)
				8.6 8.6.1 (R) (Tier 1)
ECO 4.6: Ensure the health and safety, employment rights and skills development of the workforce	ECO 4.6.1 Labour force participation by sector	By 2020 increase 15%	Labour Market Survey VNSO	8.8 8.8.1 (Tier 1) 8.8.2 (Tier 1)
	ECO 4.6.2 Total annual number of validated complaints registered with Labour Union	By 2020, increase by 20%	Labour Market Survey VNSO	

ECO 4.7: Increase labour mobility nationally and internationally, including through the collection and analysis of comprehensive labour market data	ECO 4.7.1 Change in total number of individuals participating in seasonal work programmes	By 2020 increase 10%	RBV & VNSO Report (Indicator)	8.8 8.8.1 (Tier 1) 8.8.2 (Tier 1)
	ECO 4.7.2 Labour market flows	By 2020 increase 15%	RBV Quarterly Report	
	ECO 4.7.3 Total annual remittances as a proportion of GDP	By 2020 increase 5%	RBV Quarterly Report	
ECO 4.8: Ensure processes for acquiring and using land for economic activity provides a stable platform for investment and business growth	ECO 4.8.1 Total annual number of new businesses registered by type	By 2020 increase 10%	Policy on Land Reform (MoLNR)	2.3 2.3.1 (Tier 3)
				5.a 5.a.1 (Tier 3)
				17.5 17.5.1
ECO 4.9: Strengthen dialogue between government and the private sector, and enact a robust governance framework for effective partnership	ECO 4.9.1 Total number of public/private joint ventures in operation	By 2020 increase 10%	MTTCNVB reports	17.17 17.17.1 (Tier 3)

Department of Strategic Policy, Planning and Aid Coordination
Ministry of the Prime Minister
2017
